Birds names appear from left to right, top to bottom and diagonally.

- rosella magpie heron duck egret
- spoonbill lorikeet raven honeyeater
- owl cormorant wren gull

When you have finished, write down the left over letters and see if you can discover the anti-littering message of the cormorant.

Rubbish ends up in the streams, bays and oceans. Can you design a poster to remind family and friends not to litter? If you would like us to display your poster on the KCA website, ask your parents or your teacher's permission to email the poster to us. We will display it with your first name only, or a screen name if you prefer, and your suburb or school.
