

Rally to “Stop the Great Wall”

Mistakes have been made in the past with overwhelming structures that have prevented us from making the most of our unique waterfront location. Are we about to make mistakes on an even grander scale by allowing far higher, view blocking and amenity robbing towers of 12, 14, 16 storeys in the Waterfront Precinct?

Join us!

Please come along to hear recognised authorities, including planning experts **Prof. Michael Buxton** *RMIT Emeritus Professor of Environment & Planning* and **The Hon. Kelvin Thomson** *Convenor of Planning Democracy*, speak on future plans for Frankston. Bring placards and signs to let Council know that we say “**NO**” to current proposals to allow excessive heights at the waterfront. We need instead a plan to showcase our greatest natural assets – the beach, waterway and prized views.

Sat 13 May 2023, 10.30am

Corner of Wells Street and Kananook Creek, Frankston (ref 101 Wells St)
